

COTTON MARKETS

Market Narrow and Almost Featureless—Spots Reported Shade Easier.

Wednesday Afternoon, Nov. 27. With tomorrow a holiday, because of Thanksgiving, additional reason was given for dullness in the cotton market, but it was not accompanied by any weakness of consequence. It is regarded by the chief cotton dealers with professional sentiment as bearing as it is and the spot market is slow in picking up, there is not more liquidation and hedge selling coming to hand. On the other hand, however, the bearish feeling that has been in the market does not seem to be better during the period of forbidden short sales is indicative of its inherent weakness and that it will inevitably decline when these restrictions are removed. Thus having stated the chief arguments of the day, and this serves to explain why prices are so narrow.

After night there was no news to influence values either way. The weather in the belt continues only fairly favorable, but rains have been falling in the Western Texas zone. These merely interrupted picking and did not help to enough to be market factors. Prospects were for more unsettled conditions in the section east of the river. In Liverpool there was not much feeling, about the only one being the relative strength of nearby positions, which reflects the scarcity of raw material over there. Final were barely steady and from 2 to 3 points in the bad. Private advices say that mills expect cotton demands will entirely offset the reduction in government requirements. Spots were off 9 points, good middling at 23.75, and sales were 100 bales. Receipts for the day were 1,000 bales. Receipts for the day were 1,000 bales. Receipts for the day were 1,000 bales.

In the domestic markets first prices were up slightly, but there was but little trading and neither side seemed disposed to get far from shore. January futures opened at 27.35 and sold to 27.35, but that seemed the limit, for reaction followed that. The thing which gave some of the pressure was the announcement received in New Orleans from the war bureau at Washington saying that bolls were deliverable on contracts, subject to grade and conditions applying to other cotton, thus inducing a little hedge selling. One gratifying feature in connection with this item was the hope that from here on there would be a definite ruling as to what bolls are the trade for a year or so and that the market would be more definite views as to what the term means.

Another item probably encouraging to buyers was the news that some hold-ers in the eastern part of the belt to the effect that spots were a shade easier, but that was not much to be relied on. The news, however, did not get much confirmation and most people were disposed to wait and believe it. Advice from the directors of the war bureau, although restricted in volume and was largely for the better grades and the staples.

January sold down as low as 27c, but later in the afternoon recovered a little. Moderate strength was shown during the first half hour and the best prices of the session were made, January selling at 27.45.

Futures closed 10 points up to 15 down, tone easy. November closed 3 points up to 25 lower, tone steady. Spots were unchanged, middling at 23.75, with sales 700 bales.

Liverpool will be the only market open tomorrow and should come 6 to 2 points. The local market sales were 1,800 bales and quotations unchanged, middling at 23c; Houston, 55c; Little Rock, 1.125; Augusta, 1.19c.

MEMPHIS COTTON. Memphis cotton closed steady and unchanged, middling 23.75, with sales 800 bales, including 300 today's evening.

Just Once! Try Dodson's Liver Tone!
Take No Calomel! Listen To Me!

If bilious, constipated, headachy or sick, I guarantee relief without taking dangerous calomel which sickens and salivates.

Stop using calomel! It makes you sick. Don't lose a day's work. If you are bilious, constipated, headachy or sick, listen to me!

Calomel is merely or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with your bile, causes it to break up, and when it breaks up, it causes you to feel that awful nausea and cramping. If you are "all knocked out," if your liver is torpid and your bile is constipated, or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone.

Here's my guarantee—Go to any drug store and get a bottle of Dodson's Liver Tone for a few cents. Take a spoonful tonight, and if it doesn't straighten you right up and make you feel fine and vigorous by morning, I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick. I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless, doesn't gripe and they like its pleasant taste. adv

NEW YORK COTTON.

NEW YORK, Nov. 27.—The continued bullish character of Southern spot advices, absence of hedge selling and relatively firm cables gave the cotton market a very steady tone at the opening today. First prices were unchanged to 15 points and March to 25, making net gains of 15 to 26 points. This advance met considerable scattered realizing for December contracts up to 23.75, January to 27.35 and March to 26.07, making net gains of 15 to 26 points. This advance met considerable scattered realizing for December contracts up to 23.75, January to 27.35 and March to 26.07, making net gains of 15 to 26 points. This advance met considerable scattered realizing for December contracts up to 23.75, January to 27.35 and March to 26.07, making net gains of 15 to 26 points.

No fresh feature developed during the early afternoon trading was very quiet and fluctuations were narrow with prices ruling around 27.00 for December and 26.00 for March, or about 6 to 10 points net lower.

Futures closed easy at advance of 10 to decline of 15 points.

NEW ORLEANS COTTON.
NEW ORLEANS, Nov. 27.—The holiday tomorrow caused a dull opening in the market. Prices were steady and sluggish in the first half hour of business, trading months first rising 9 to 10 points and then receding until they were one point under yesterday's close.

The ruling by the bureau of markets at Washington that bolls were deliverable on contract caused some of the pressure in the market and created a selling wave on which prices went up slightly, but there was no close of yesterday.

Selling on the ruling regarding bolls continued in the afternoon session. At 1 o'clock prices were 35 to 38 points off net.

Spots closed quiet and unchanged; ordinary 21.25; good ordinary, 22.50; low middling, 26.00; middling, 29.75; good middling, 30.75. Sales on the spot, 785 bales. None. Delivered on contract, none.

Futures closed steady at advance of 3 to decline of 25 points.

LIVERPOOL COTTON.

Shipments Buoyant on Offer of U. S. Government to Buy Marine Tonnage.

NEW YORK, Nov. 27.—Shipments were buoyant at the opening of today's stock market on announcement of the offer of the United States government to purchase the large tonnage of the Mercantile Marine company. Marine preferred opened with a sale of 8,000 shares at 112 to 110, a maximum overnight gain of 8 points. The six per cent bonds rose 3 points and Marine common 2 1/2, while Atlantic Gulf gained three points. Other strong features included the motors, sugars and lead, and rails and prominent equipments were irregular. Liberty fourth 1-4-4 recorded yet another low quotation at 97.02.

Publication of more definite details concerning the Mercantile Marine deal caused a further jump of 7 1/2 points in Marine preferred at midday. Railway Steel stock advanced 3 1/2 points on its increased dividend and the leaders rallied 1 to 3 points.
